

ART 104 · FALL 2026

SAN JOSÉ STATE

WELCOME

SOLARPUNK

Photos by Matt Dutile

OLALEKAN B. JEYIFOUS b.1977

Olalekan Jeyifous received a BA in Architecture from Cornell University and is a Brooklyn-based artist whose work reimagines the intersections of architecture, community, and the environment through inventive visual storytelling. By merging physical and digital elements with both historical and speculative contexts, his practice offers critical reflections on existing systems while imagining alternative ways of relating to each other and the spaces we inhabit. His art has been exhibited at major institutions including the Studio Museum in Harlem, the Vitra Design Museum, and Guggenheim Bilbao, and is held in the permanent collections of the Museum of Modern Art, the Art Institute of Chicago, and SFMOMA.

In addition to an extensive exhibition history, he has spent over two decades creating large-scale public installations and was co-commissioned to design a monument to Congresswoman Shirley Chisholm for New York City's She Built NYC initiative.

His distinctions include the 2024 Louis Comfort Tiffany Award, the Silver Lion at the 2023 Venice Architecture Biennale, the 2021 United States Artists Fellowship in Architecture and Design, the 2021 J. Irwin and Xenia S. Miller Prize, and two NYFA Fellowships. He has also been awarded residencies at MacDowell, The Drawing Center's Open Sessions, and the Rockefeller Foundation's Bellagio Center, and he currently serves as the 2026 Brooklyn Botanic Garden Heidi Nitze Fellow.

QUOTE

“So if you can start creating fiction and narrative that includes some of the ideas that solarpunk envelopes, then maybe we can start coming up with some different solutions so that we are not going to hurtle toward this apocalyptic end.” — KEISHA HOWARD [[9:06 , starts 4:05]]

QUESTION OF THE WEEK

Imagine the future. What is one "natural" thing in that vision?

HOW IT WORKS Type your answer below, then tap the sheet to set it down.

LIVE Everyone in the room sees every word as it lands.

THE FLOOR IS FILLING UP

24 ANSWERS

WEEK 1

LIVE. TAP ANYWHERE TO PLACE YOUR ANSWER.

The word cloud contains the following phrases and words:

- hopefully forest restoration
- Chaos
- large redwoods
- mountains
- space exploration
- accessibility
- teleportation
- Floating gardens
- fear
- history repeating
- waterbears
- Resource efficiency
- Genetic farms and systems
- pure blue sky
- The smell is colored
- AI
- climate change getting worse
- eco-cities
- love
- cities underwater
- human desire to create
- Darker night skies
- forests
- mountain decay

WARMUP

<https://sbuckius.github.io/art104-fall2026-buckius/pages/opening-questions.html>

IF BROKEN: <https://docs.google.com/document/d/1-BBTHsy7Op7NUyVd4xjg8KoMeBEUJiZKcuQAm3NCyys/edit?tab=>

DISCUSSIONS

“How can art influence the way people think about environmental issues?” — Ko

“I think art can influence people by giving them a medium through which to understand or care about the issues. If someone's just told the facts about how the world is changing, then they might not care, or be able to attach emotion to those happenings. If they're shown how the world is changing through art, it can allow people to truly understand the consequences of environmental issues, and give them a reason to feel attached to help fixing it.” — Alice

“I think art can make environmental issues feel more personal and meaningful.” — Ko

“Art can influence how people think about environmental issues by appealing other people's pathos. Logistics and numbers aren't resonating with people as much as a visual indicating a person's past, present, or future. By creating art, people will be more inclined to do some personal introspection and spread the word at the very least.” — Shelby

“I think art can influence viewers to think about environmental issues through a meaningful message or shock value. Visuals can sometimes create a stronger message than just words. Some people better understand the gravity of a situation via art.” — Andrea

Group 1 CHECK-IN

DISCUSSIONS

“How can art be used to communicate ideas outside of the art world?” — Liz

“I think art can be used to communicate ideas outside of the art world by making complex topics more creative and easier to understand. For example, art can help communicate scientific ideas in a way that connects with people who might not normally be interested in science.” — Liz

“Art can be used to communicate anything, in part I think because it transcends many barriers that prevent other methods of communication. I often think about how art was used to communicate ideas and daily tasks/needs to those who weren't literate in the past, and find this to be a good example of how humans have been doing this since our first civilizations.” — Zoee

“i think art can appear in public spaces, social media, advertisements, games, or websites, making complex ideas easier to understand and discuss” — Ysi

Group 1 CHECK-IN

DISCUSSIONS

“how are we able to contribute to building sustainable architecture, in cities with limited resources? During class, I remember we discussed integrating nature into our architecture, using what we already have, building with the surrounding area instead of bulldozing over it or destroying it completely, this will waste less materials and allow places with limited materials to create more sustainable architecture.” — Isaac

“Instead of burning fuels or inventing new ways to boil water, part of a city's energy cost could be harvested from the Earth. Solar, wind and hydro power are the big three that come to mind as far as renewability goes.” — Jerrod

“A idealistic approach to answer this question is to build city infrastructure that is less reliant on carbon emitting vehicles and produce cities capable of utilizing public transit. The road maintenance costs and effects on the environment far exceed their benefits in direct comparison to widely accessible public transit and walkable cities. A focus on developing these critical systems of accessibility would naturally shift public attention to the natural world seeing as they will be surrounded by it more often. Natural canopy coverage, green roofs and and more acceptance of greenery in general within cities, conversion of streets to lush walkways are just a couple of things I can think of to improve. I feel my answer moved the goalpost from architecture to city planning a bit so let me know what you think.” — Alex

“My assigned article is “The Power of ONE” by Curtis Baffico. He explains how one simple action can influence others. He also introduces a program in which a \$1 donation can ripple through a network, connect people, and create a collective environmental impact.” — Duc

Group 3 CHECK-IN

DISCUSSIONS

“Art can interact with human psychology by invoking a emotion, it can also connect to the environment by being about the environment. Its placement in space also can affect its depiction.” — Kayden

Group 6 CHECK-IN

Addressing Course Concerns & Goals

I want to support you all!

GRADING NOTE

A large, light green letter 'O' is centered on a dark purple square background. The 'O' is thick and stylized, with a slight shadow effect on the right side of the square.

GRADING NOTE: zeros in the grade book

I use ZEROS as a reminder. Not a punishment. I forget things and this triggers a reminder for all of us:)

- ➡ JUST to remind you to turn this in.
- ➡ I always accept late work.

COURSE CONCERNS

CONCERNS: Overall

EXCELLENT Awareness of your creative process and areas of concern

- ➔ So many of you have the wonderful ability and awareness to clearly articulate your learning goals and concerns.
- ➔ This is a super useful skill for college and beyond. Keep honing this! It will help you for the rest of your life.

COURSE CONCERNS

WEEK_2: Artist-Theorist-Responses (PRESENTATION)

Published

Assign To

Edit

⋮

STEPS

1. **SELECT IDEAS:** Pick some interesting things that you learned from the response file that you filled out and that you want to share with the class.
 1. What are some of the speculative art ideas that you really want to pursue?
 2. What ideas or concepts really inspired you?
 3. What thoughts could be helpful for the class to explore?
 4. What are some areas of interest that you want to look into?
 5. This is the file I am referring to: https://docs.google.com/document/d/1vAaHj818d1IhV2Y7j2nGS4HlCqEzEoDm_NarNM5mg/edit?usp=drive_link
2. **COPY:** Make a copy of this slide template and name it YourLastName_YourFirstName.
https://docs.google.com/presentation/d/16sme32MXcO9I7cz7HPClnKYCue9D7e6ps0QvNUCsupr/edit?usp=drive_link
3. **SLIDES:** Create slides using this template. You can also make your own slides, if you prefer.
4. **INCLUDE:** Include at least one image or graphic on one slide. This image can be made by you or not made by you.
5. **PRESENTATION:** Keep your presentation to no longer than 1 minute.
 1. I will have to stop you at one minute.
 2. Be prepared to share your slides at the beginning of the class.
6. **UPLOAD SLIDES:** Upload the PDF of your slides to this CANVAS assignment.

CONCERN: Presentations

Replace “presentations” with “sharing”

- ➡ Think of this as sharing with your classmates.
- ➡ You are not alone if this is your concern; this is one of the main concerns of previous classes.
- ➡ I really want all of you to improve in this space. Improvement is the goal. Not perfection.
- ➡ I hope to make this as safe as possible, so that you can practice before you graduate and then will likely do this after college in jobs or other contexts.
- ➡ This is one of the parts of the course where you learn from each other.

CONCERN: Group Work

Structured

- ➔ Do you have any ideas to share that would help to create a productive group work environment?
- ➔ My plan is to create structured group work using frameworks. This will allow you to practice group work, but with a clear structure, so there isn't much floundering and wondering and all of that wishy-washy stuff that makes group work hard.
- ➔ I will try really hard to make this a good experience.
- ➔ I really want you to be able to add to any interview or list of skills "experience working in diverse groups"

COURSE CONCERNS

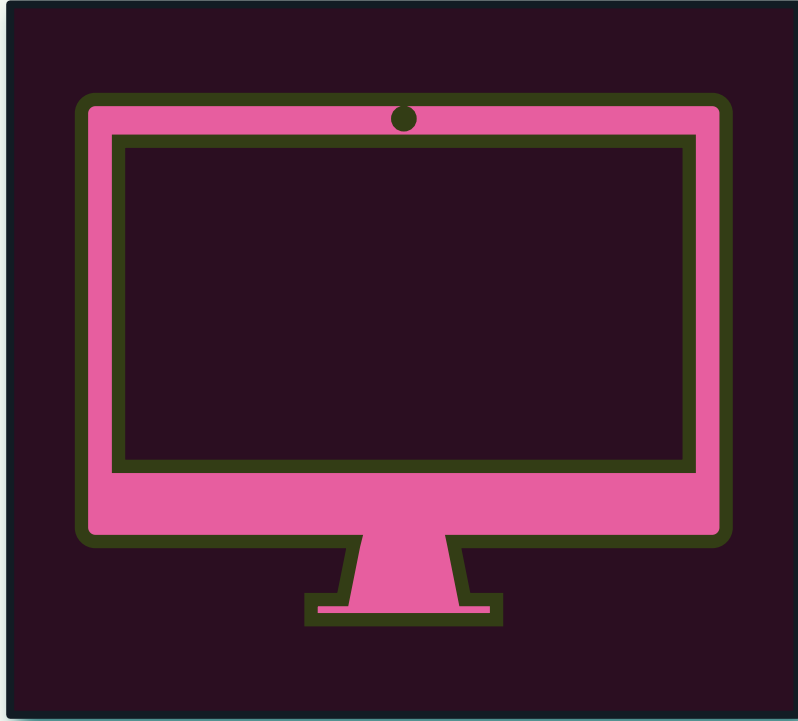

CONCERN: Feel shy or uncertain about talking in groups

Many of us seem to share this concern

- ➔ I can relate. I tend to be the person who likes to listen to others before sharing. In group meetings, I am still this way.
- ➔ I hope that this can be a safe space to practice trying out sharing ideas in a group.

COURSE CONCERNS

CONCERN: Digital Media Tools & Work

In most cases you can use whatever you have available

- ➔ In most cases, you can use whatever you have available.

COURSE CONCERNS

CONCERN: Environment being loud in the background

IDEAS?

- ➔ Can others share what their solutions are?
- ➔ MLK library
 - ➔ <https://booking.sjlibrary.org/r/new/availability?lid=23137&qid=49099>
 - ➔ The longer in advance they know they need to reserve a room, the better their chances to reserve one at a time they need.
 - ➔ 2 hour max
 - ➔ Reserve 4 days in advance
 - ➔ Consider avoiding the 7th floor due to noise for this silent floor
 - ➔ If you book it together, then more than one of you can book it and get past the 2 hour max!!
- ➔ Perhaps those of you in this situation can put your names in the chat and you all can plan to check out a room?
- ➔ IS 233— looking into this room as a possibility.

COURSE CONCERNS

CONCERN: Busywork

My goal is to make things useful and helpful, AND....

- ➡ I hear you.
- ➡ I hope that once you do the assignments once, you might see that they move more quickly than they did the first time.
- ➡ That being said, I will do my best to make the projects clear and useful. [[Most of the things that are included in the class, I think will likely help you beyond college, at least in my humble opinion.]]
- ➡ Wear this lens with everything: how can this connect to my interests personally?

COURSE CONCERNS

CONCERN: Too much reading

The goal is not a thorough reading of these texts. It is exposure to the ideas.

- ➡ Replace “reading” with “become acquainted with by looking through and reading parts that interest you” or “read bits and pieces of this text” or “skim”
- ➡ The goal is exposure to these ideas. Then, applying the ideas to your interests and those of your classmates.

COURSE CONCERNS

AI

CONCERN: Use of AI

I struggle with this myself. I don't know what to do.

- ➔ There might be a time when your thoughts on AI conflict with a group member.
- ➔ I hear you.
- ➔ This is an unknown space for all of us. I am learning how to navigate this as well.
- ➔ I have also felt this. I have conflicts within me even though I use it for some things.
- ➔ I wish that I had a great solution to navigating this.
- ➔ Can you share some ideas about how to navigate this?
- ➔ My only suggestion is to keep thinking about this, keep researching it, keep reading about it, keep notes on your opinions. Write papers and make art about your thoughts. Inform others. Inform yourself. Be aware.

SolarPUNK

OLALEKAN B. JEYIFOUS b.1977

SolarPUNK

MAIN IDEAS

Overview

- Futures where ecological repair and technology work together
- Optimism, best of humanity
- Diversity, community, generosity, ingenuity, beauty

Aesthetics

- Art Nouveau curves, organic ornament, stained glass
- Vertical gardens and green roofs
- Solar panels
- Warm daylight palettes
- Technology you can see working, and imagine fixing

Ideals

- Renewable energy, decentralized
- Repair and maintenance over disposal
- Appropriate technology
- Open source hardware, right to repair, tool and seed libraries, community solar

CLIMATE, MEDIA, MAKING · SJSU · FALL 2026 · MADE COLLECTIVELY						
Read ACROSS a row for one person's plate. Read DOWN a column to synthesise. The bottom row is written last, by someone who did not fill that column.						
MAKER	01 - AESTHETIC DETAIL	02 - SOLARPUNK CONCEPT	03 - IMAGE	04 - TEXT + GRAPHIC	05 - LEARNED from SWITCH zine	06 - ZINE REFERENCE
your name	One concrete, physical thing you can see or touch. Not a mood, not "green tech." A material, a texture, a colour, a joint, a repair.	The claim underneath the detail. What does this world believe about labour, care, energy or ownership that ours does not?	Drop an image in this cell: Insert + Image + Image in cell. Name the source beneath it.	What text will you add to the piece? What graphics?—text, typeface, colour, shapes, lines, etc.	What is one thing that you learned from your SWITCH zine collaboration? It could be how to respond to other artists' work, graphic design ideas, use of text, use of images, etc.	Pick a zine from the link here, https://docs.google.com/spreadsheets/d/1Mf_MvSyRlymm0bewvMNvg8ZbrVfX8PxDVJPYotTq0Jo/edit?gid=833240891#gid=833240891 then say in one line WHAT you are using as inspiration: grid, type, paper, colour, binding, or how it handles images.
EXAMPLE	glowing orbs, green plants, light, blue oceans, crawling vines.	story filled with hope, resilience, solar energy, and humanity's struggle to renew Earth. -- https://www.vmebooks.org/article/solarpunk-represents-a-shiny-future/		"At its core, Solarpunk is a vision of a future that embodies the best of what humanity can achieve: a post-scarcity, post-hierarchy, post-capitalistic world where humanity sees itself as part of nature and clean energy replaces fossil fuels." -- https://theearthshillibrary.org/library/the-solarpunk-community-a-solarpunk-manifesto/ I want to take some of this text and cut and paste parts of it.	I learned that it works well if each person places an image and then we place the text.	https://chad.encyclopediainc.com/2022/07/26/dsp83p7nirv/bedtime/bedtimebook.html I am inspired by the combination of hand-drawn parts and text. I want to include that in our zine.

Solarpunk zine

The background of the slide is a photograph of a field with tall grass and some trees in the distance under a blue sky. A large, expressive green brushstroke is painted over the center of the image, creating a sense of movement and energy.

PERMACOMPUTING & DEGROWTH

Artist + Theorist: Week 3

The WITCH: RESPONSES

STEPS

1. COPY FILE: Make a copy of this file named as "YourLastName_YourFirstName" https://docs.google.com/document/d/1c-F55WtiMdtq7LaHOIsdR19q6O2OfR8SBgCtOz4A_wl/edit?usp=sharing
2. ANSWER: Answer all questions in the file.
3. SAVE: Save the file as a PDF.
4. UPLOAD: Upload your PDF to this CANVAS assignment.

W03 | AFTER-CLASS |

Permacomputing & Degrowth |

Artist & Theorist Responses | P1:

Text + Visuals | INDIVIDUAL

STEPS

1. **COPY FILE:** Make a copy of this file named as "YourLastName_YourFirstName" https://docs.google.com/document/d/1c-F55WtiMdtq7LaHOIsdR19q6O2OfR8SBgCtOz4A_wl/edit?usp=sharing
2. **ANSWER:** Answer all questions in the file.
3. **SAVE:** Save the file as a PDF.
4. **UPLOAD:** Upload your PDF to this CANVAS assignment.

GOAL: Find personal connections to the ideas. Generate writing and ideas for artworks that could be pushed further into a larger article or project.

Artist + Theorist: Week 3

The WITCH: PRESENTATION

W03 | AFTER-CLASS |
Permacomputing & Degrowth |
Artist & Theorist Responses | P2:
Presentation | INDIVIDUAL

STEPS

1. **SELECT IDEAS:** Pick some interesting things that you learned from the response file that you filled out and that you want to share with the class.
 1. What are some of the speculative art ideas that you really want to pursue?
 2. What ideas or concepts really inspired you?
 3. What thoughts could be helpful for the class to explore?
 4. What are some areas of interest that you want to look into?
 5. This is the file I am referring to: https://docs.google.com/document/d/1c-F55WtIMdtq7LaH0ludR19q6O2OfR8SBgCtOz4A_wl/edit?usp=sharing
2. **COPY:** Make a copy of this slide template and name it YourLastName_YourFirstName. https://docs.google.com/presentation/d/1e4yxMP7JHvAuNpW_voXsC6vRDevfF2zSf1DQOWOKs0/edit?usp=drive_link
3. **SLIDES:** Create slides using this template. You can also make your own slides, if you prefer.
4. **INCLUDE:** Include at least one image or graphic on one slide. This image can be made by you or not made by you.
5. **PRESENTATION:** Keep your presentation to no longer than 1 minute.
 1. I will have to stop you at one minute.
 2. Be prepared to share your slides at the beginning of the class.
6. **UPLOAD SLIDES:** Upload the PDF of your slides to this CANVAS assignment.

STEPS

AFTER-CLASS Reflection Week 1: Individual

⚠ This is a preview of the draft version of the quiz

Started: Aug 21 at 10:24am

Quiz Instructions

These questions aim to encourage you to reflect on the specific themes and ideas related to climate, nature, ecology, and art that were covered in class, while also prompting you to consider your own roles, responsibilities, and actions as artists engaging with these issues.

Question 1 1 pts

What was the most ~~thought-provoking~~ idea or concept related to climate or ecology that you encountered in today's class?

Edit View Insert Format Tools Table

12pt Paragraph B I U A D Y

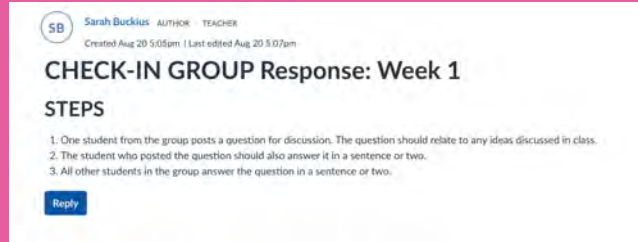

These questions aim to encourage you to reflect on the specific themes and ideas related to climate, nature, ecology, and art that were covered in class, while also prompting you to consider your own roles, responsibilities, and actions as artists engaging with these issues.

GOAL: Reflect individually on the ideas in class to encourage deeper learning.

CHECK-IN Group Response

https://sjsu.instructure.com/courses/1633185/discussion_topics/5917868

The screenshot shows a discussion topic in Canvas. At the top, it says 'SB Sarah Buckius AUTHOR TEACHER' and 'Created Aug 20 5:05pm | Last edited Aug 20 5:07pm'. The title is 'CHECK-IN GROUP Response: Week 1'. Below the title is the word 'STEPS' in bold. There are three numbered steps: 1. 'One student from the group posts a question for discussion. The question should relate to any ideas discussed in class.' 2. 'The student who posted the question should also answer it in a sentence or two.' 3. 'All other students in the group answer the question in a sentence or two.' At the bottom left of the steps is a blue 'Reply' button.

1. One student from the group posts a question for discussion. The question should relate to any ideas discussed in class.
2. The student who posted the question should also answer it in a sentence or two.
3. All other students in the group answer the question in a sentence or two.
4. This is team-building and peer sharing and learning.

GOAL: Collaborate to think more deeply about the ideas together.
